## One Stop Solutions For Whole Sports Project

football ,basketball ,tennis ,hockey ,pickleball, volleyball, table tennis, padel courts and so on with all supporting facilities.

# PADEL TENNIS

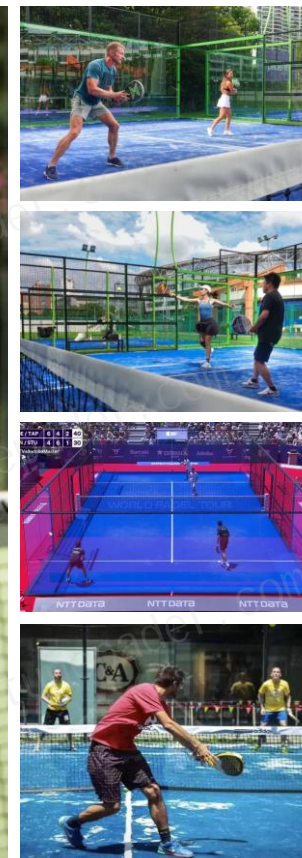

Brief introduction

## NEW SPORTS IN THE WORLD.

Padel tennis has been one of the most talked about new sports in the world over the past few months. In addition to being included as an official sport at the 2023 European Games, the top global event has received funding from Middle Eastern investors, with branches coming to Africa and the International Federation of Padel Tennis (FIP) actively promoting the sport to be included in the Asian and Commonwealth Games.

# ABOUT FORTUNE

## Production Facility at Padel Factory

### Production Capability

The Fortune Padel factory boasts an annual production capacity of up to 2000 projects, capable of meeting the demands of the global market.

**2,000 sets**

### Material Innovation

Utilizing high-strength, weather-resistant materials, our padel courts ensure optimal performance under various climatic conditions.

### Precision Manufacturing

Adopting precision manufacturing techniques, we guarantee accurate dimensions, easy installation, and a long service life for our padel courts.

### Production Process Monitoring

Multiple quality control points are implemented throughout the production process to ensure every step meets the required quality standards.

# SERVICE ITEMS

## Service Process

Step  
1

### Solution Consultation

Based on the customer's actual situation,  
We provide customized solutions for  
high-standard sports fields.

Step  
2

### Professional Design

The design process will fully take into  
account the customer's needs and local  
market environment. The designed  
products will achieve a high level of  
customization.

Step  
3

### Independent Production and Quality Inspection

To ensure the high quality and performance of  
the product, we will monitor the entire production  
process from raw material tests to sampling in  
every part of the production to control the  
product quality strictly. and also will provide the  
details of Quality Reports for clients. Fortune  
Group owns the largest Manufacturing Facilities,  
which will deliver the cargo in a short time.

Step  
4

### Flexible Transportation

Fortune Group has years of experience  
cooperating with clients aboard so we can  
provide different types of transport  
to deliver the cargo, such as door-to-door  
service. and we also offer the service for clients  
to check the monitoring, tracking, and updating  
of the cargo information.

Step  
5

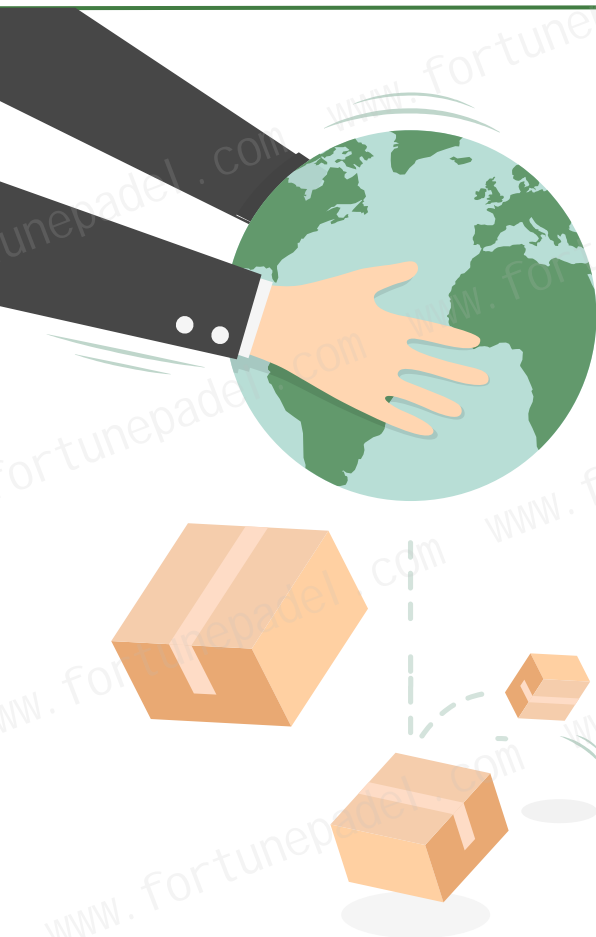

### Site Construction

Our professional construction team will  
minimize the construction period while  
ensuring quality to guarantee the smooth  
operation of sports fields. The construction  
process will be carried out strictly  
according to the design specifications to  
achieve the customer's use needs.

Step  
6

### After-Sales Service

We will provide comprehensive maintenance  
plans and after-sales service for sports fields.  
Ensure their performance and safe use, and  
provide customers with continuous high-quality  
service experience.
