集团简介

GROUP PROFILE

Shaanxi QunTiYongXian Elevator Group Co.,Ltd (hereinafter referred to as "YongXian Group") has been deeply engaged in the elevator industry for nearly 40 years, and has developed into a global modern elevator enterprise integrating research and development, manufacturing, sales and service.

YongXian Group, headquartered in Xi'an, Shaanxi Province, has entered the elevator industry in 1988. After years of development, YongXian Group has Formed an enterprise pattern with more than 200 employees, covering diversified sectors such as manufacturing of elevators and accessories, global trade,

tech support, warehousing and logistics services, supply chain resource management, etc. Its own elevator brand FUJISJ, is the first brand to create a "feltless running elevator" in the elevator industry.

At present, the products of YongXian Group have been sold well to 31 provinces and cities in China, and the business territory has been extended to 165 countries and regions around the world, which has realized a global strategic layout. With a strong supply chain system, YongXian Group is able to provide one-stop service for more than 30,000 kinds of elevator series products, and is committed to providing elevator industry and users with elevator series products and solutions with excellent performance and experience, so as to make a more advanced elevator production and life style benefit every user.

Quality Assurance And Durability

The quality of all components is strictly controlled to ensure that every detail of the product reaches the highest quality, demonstrating super stability and durability.

Unique Design And Easy Installation

All interfaces are designed to be plug-in and unplug-out, and the wiring terminals are precisely connected to ensure stable data transmission. It is easy to install and convenient and worry-free.

Global Best Price

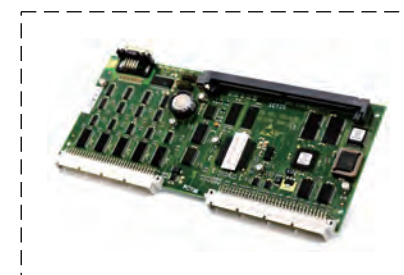

With our cost advantage, we can provide you with the best prices in the world and help you get substantial returns.

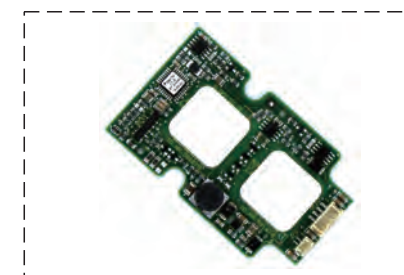

Agile team worry free service

We have a highly professional and agile service team that provides customer service including hotline, email, WhatsApp, and on-site services.

VF5+ Lift Door Controller

The core components of Fermator door systems

Perfect Replacement VVVF4+/VF4+/VVVF5

Four core advantage

Fermator Official Partner

The products comply with the European CE standard, the European Commission EMC standard 2014/30/EU for electromagnetic compatibility, and the elevator product industry standards EN12015: 2014 and EN12016: 2013.

Fermator Original Supplier

High performance control with superior quality. With our most competitive channel advantage, we provide you with incredible global best price.

Technical Support Personalized Service

We have a highly professional and agile technical team that provides global service hotline, email, WhatsApp, on-site and other after-sales services.

Applied to various elevator brands

Widely used in Schindler, Thyssen, Otis, SJEC, Koyo, SRH, KLEEMANN and other brand elevators.

Four Advantages

Longer Life

FUJIDA steel belt is a steel belt produced by China's three major elevator steel belt factories, with better quality and lower price.

Higher Security

The full specification of FUJIDA steel belts can withstand at least 3,200 kilograms of tensile force, and its safety factor is at least 12, which is higher than the national standard requirements.

Quality Assurance

Direct delivery from the original factory, better cooperation channels.

Warranty Commitment

2-year warranty.

ELEVATOR ROPES

Certification

Testing Equipment

Factory Tour

We are a global supplier of steel wire ropes

We use the most advanced wire rope manufacturing technology in Germany

Our wire ropes perform better and last longer

	Skills requirement	Our wire rope	China's first-tier brand steel wire rope
Wire knotting rate	≥50%	60-62	58-60
Steel wire tensile strength	0.38mm ≥1770MPa	0.38mm 1980	0.38mm 1920
	0.65mm ≥1620MPa	0.65mm 1830	0.65mm 1740
Wire twist	≥30/360°	40-47	42-61
Wire rope breaking tension	≥48.4KN	59.0	56.6
Wire rope diameter	No load ≤10.60mm	No load 10.34	No load 10.31
	5% Minimum breaking force ≥10.10mm	5% Minimum breaking force 10.26	5% Minimum breaking force 10.17
	10% Minimum breaking force ≥10.00mm	10% Minimum breaking force 10.20	10% Minimum breaking force 10.07
Out-of-roundness of wire rope	≤3%	0.2	0.4
Wire rope diameter Uniformity deviation	≤2%	0.1	0.2
Wire rope lay length	≤67.50mm	62.88	66.25
Structural elongation	≤0.60%	0.07	0.07
Fiber core Lubricant content	10-16%	11.2	10.8
Reference weight	Kg/100m	34.7	34.0
Number of bends	frequency	1200000	8000000
Price		low price	high price

Sanjin Light Curtain

Durable And Cost-Effective

2-year extended warranty
ODM/OEM Service

QC/CE/UL/CAS certification mark

High EMC performance

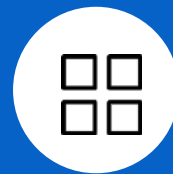

Wide operating voltage
High pressure and surge resistance

Multi-level infrared gain mode
Double guarantee of sensitivity and stability

Software and hardware filter design
Excellent anti-light interference performance

Complete product range
Various specifications available

Excellent equipment

Elevator Modernization Solutions

We have a professional technical team that is ready to help you solve problems and overcome all problems

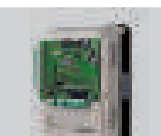

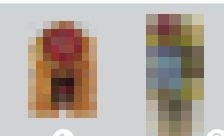

Have you encountered the following problems ?

- Accessories are discontinued without replacement
- High maintenance costs
- Long maintenance cycle
- Difficult to repair
- Does not meet the requirements of the new national standard
- Old elevators have a long operating life
- Ageing of mechanical equipment and electrical circuits
- Low operating efficiency
- High failure rate

The largest elevator modernization service provider in China

 Main drive Permanent magnet synchronous traction machine	 Emergency ARD	 Car top Car top box
 Controller Inverter	 Door machine ① Door motor ② Door inverter	
 Electric ① PIT emergency box ② PIT inspection box	 Man-machine interface COP & LOP	 Electrical accessories ① Hoistway switch ② Accompanying cable ③ Leveling switch ④ Encoder

Modernization Solutions

Monarch Strategic Partner

- Source manufacturer, stable cooperation
- The only manufacturer with export authorization
- We are Monarch renovation accessories supplier
- We are Monarch after-sales service provider

The background is a light blue and white illustration featuring a radial burst pattern of lines emanating from the center. Scattered throughout this pattern are various technical line drawings of elevator components, including a control panel with buttons, a circular ring, a rectangular box, a cylindrical part, and several mechanical assemblies with gears and shafts.
